SYED MOHAMMAD MAZIN

Software Engineer

📞 +923335749267   @ smmazin2000@gmail.com   🔗 linkedin.com/in/syed-mohammad-mazin
📍 Islamabad, Pakistan

EXPERIENCE

GIP Intern

HENNGE

📅 08/2024 - 09/2024   📍 Tokyo, Japan

- Added features to their hiring platform to improve automation of processing over 3000 candidates info and data analysis on their profile
- Included GitHub and Slack integration for managing applicant information
- Received training for Fullstack web development and DevOps with AWS to learn the full deployment cycle
- Used Vue, Terraform, DynamoDB, ECS, EC2, Load Balancers, Typescript and Golang

Software Engineer

Rewaa

📅 06/2023 - 07/2024   📍 Islāmābād, Pakistan

- Worked on the Subscription and Affiliate service
- Implemented Bank Transfer and Pay My Mobile options as payment methods
- Fixed security issues
- Used Angular, NodeJS, NestJS and AWS for fulfilling tasks and debugging
- Performed R&D on fixing potential XSS attacks, adding new features to display reports

IT Service Portal

Freelance

📅 02/2023 - 04/2023

- Created a Customer - Client management application using NextJS, Prisma and PostgreSQL
- Used shadcn/ui, Tailwind and route handlers to implement all the necessary functionality in a single project
- Focused on creating a reusable and modular frontend application with features such as Reusable forms and tables that could handle different data structures

Full Stack Engineer

Topical Past Paper

📅 09/2022 - 11/2022   📍 Islamabad, Islāmābād, Pakistan

- Designed a portal from scratch where users can select and generate PDFs of questions related to their topics.
- Delivered the project in under a month
- Used MongoDB, Express, NodeJS for the backend and ReactJS for the frontend using Vite

React and Blockchain Developer

MWAN Mobile

📅 06/2022 - 09/2022   📍 Islamabad, Islāmābād, Pakistan

- Responsible for RnD of popular blockchain software programs such as Metamask for creation of new features for the company's app.
- Created a UI interface for a messaging client using the WhatsApp Business API which allows for realtime conversation with clients and broadcasting messages

React Developer

Direct Kissan

📅 04/2022 - 07/2022   📍 Islamabad, Islāmābād, Pakistan

- Designed frontend modules of summaries, invoice generation and placing of orders using ReactJS and Material UI
- Took over the project and delivered it in under 3 months with a focus on clean code, a bug free experience and ease of use according to the product manager's requirements
- Used Redux for state management

SUMMARY

Enthusiastic about leveraging a strong foundation in full-stack development and a keen interest in software engineering to contribute to building innovative solutions.

Adept at using modern technologies such as React, NodeJS, and AWS, bringing a passion for delivering impactful results that align with mission-driven initiatives.

PROJECTS

EmoteStop

an open source web app for resizing emotes to fit the requirements for Twitch, Discord and YouTube

Built using NextJS

emotestop.vercel.app

- serving 200 users weekly by streamlining cumbersome processes
- Using Posthog to perform analysis on user behavior which helped identify bugs and responsiveness issues

EDUCATION

Bachelor of Science - BS, Computer Science

National University of Sciences and Technology (NUST)

📅 04/2019 - 06/2023

GPA
3.67 / 4.0

SKILLS

| React | NextJS | Angular | Vue |

| Typescript | Javascript |

| NodeJS | Golang | NestJs |

| MySQL | PostgreSQL | MongoDB |

| DynamoDB |

| AWS | Terraform | Google Cloud |

| CI/CD | Git |

| Figma | Tailwind | SCSS |

| Redux | Zustand |

| Jest |
